Contents of Volume 3

No. 1

Original Papers

Aroma production by spores of *Penicillium roqueforti* on a synthetic medium (SIM 00104) . . 1
C. Larroche, B. Tallu and J.-B. Gros (France)

Thermotolerant single cell protein production by *Kluyveromyces marxianus* var. *marxianus* (SIM 00105) 9
P.J. Anderson, K.E. McNeil and K. Watson (Australia)

Fermentation of cheese whey by a mixed culture of *Clostridium beijerinckii* and *Bacillus cereus* (SIM 00107) 15
D. Stevens, S. Alam and R. Bajpai (U.S.A.)

Evaluation of the growth of microorganisms on diaper absorbent materials (SIM 00106) . . . 21
B.H. Keswick (U.S.A.)

Effect of polymer differences on fungal penetration of hydrogel lenses (SIM 00108) 29
J.R. Buffington, R.B. Simmons, L.A. Wilson and D.G. Ahearn (U.S.A.)

Characterization of the effect of aluminum metal on poliovirus (SIM 00109) 33
R.B. Thurman and C.P. Gerba (U.S.A.)

Experimental formulations of *Bacillus sphaericus* for the control of anopheline and culicine larvae (SIM 00110) 39
L.A. Lacey, D.H. Ross, C.M. Lacey, A. Inman and H.T. Dulmage (U.S.A.)

Buffering as a means for increasing growth and butanol production by *Clostridium acetobutylicum* (SIM 00111) 49
D.L. Bryant and H.P. Blaschek (U.S.A.)

Short Communication

Methionine inhibition of thienamycin formation (SIM 00112) 57
M. Uyeda and A.L. Demain (U.S.A.)

No. 2

Original Papers

Modeling of calcium-induced solubility profiles of casein for biotechnology: influence of primary structure and post-translational modification (SIM 00113) 61
H.M. Farrell, Jr. and T.F. Kumosinski (U.S.A.)

Application of computerized infrared and Raman spectroscopy to conformation studies of casein and other food proteins (SIM 00114) 73
D.M. Byler and H. Susi (U.S.A.)

Investigation of differences in the tertiary structures of food proteins by small-angle X-ray scattering (SIM 00119) 89
H. Pessen, T.F. Kumosinski and H.M. Farrell, Jr. (U.S.A.)

Heat-induced injury in *Listeria monocytogenes* (SIM 00115) 105
J.L. Smith and D.L. Archer (U.S.A.)

Spheroplast formation and partial purification of microbodies from hydrocarbon-grown cells of *Cladosporium resinae* (SIM 00116) 111
D.B. Carson and J.J. Cooney (U.S.A.)

Fluorometric analysis of iodinated aflatoxin in minicultures of *Aspergillus flavus* and *Aspergillus parasiticus* (SIM 00118) 119
P.A. Lemke, N.D. Davis, S.K. Iyer, G.W. Creech and U.L. Diener (U.S.A.)

No. 3

Original Papers

Analysis of the biomacromolecular architecture of eukaryotic and prokaryotic serine proteases (SIM 00117) 127
M.N. Liebman (U.S.A.)

Filamentous growth of *Pseudomonas aeruginosa* (SIM 00120) 139
J.B. Wright, J.W. Costerton and W.F. McCoy (Canada)

Proteins as potential bacterial growth inhibitors in foods: suppression of the activity of water by proteins as determined by NMR relaxation methods (SIM 00121) 147
T.F. Kumosinski, H. Pessen and H.M. Farrell, Jr. (U.S.A.)

Quality assurance of monoclonal products: virologic and molecular biologic considerations (SIM 00122) 157
D.L. Prince and R.N. Prince (U.S.A.)

Trichothecene biosynthesis in *Gibberella pulicaris:* inheritance of C-8 hydroxylation (SIM 00123) 167
M.N. Beremand and A.E. Desjardins (U.S.A.)

Fermentation of starch hydrolysates by *Lactobacillus plantarum* (SIM 00124) 175
T.R. Shamala and K.R. Sreekantiah (India)

Anaerobic biotransformations of pollutant chemicals in aquifers (SIM 00125) 179
J.M. Suflita, S.A. Gibson and R.E. Beeman (U.S.A.)

No. 4

Review Paper

Microbial transformations of tin and tin compounds (SIM 00129) 195
J.J. Cooney (U.S.A.)

Original Papers

Copper retention by a strain of *Bacillus* (SIM 00132) 205
F. Solanellas and A. Bordons (Spain)

Microbial metabolism and detoxification of 7,12-dimethylbenz[*a*]anthracene (SIM 00130) . . . 211
D.C. McMillan, P.P. Fu, J.P. Freeman, D.W. Miller and C.E. Cerniglia (U.S.A.)

A rapid and simple method for staining of the crystal protein of *Bacillus thuringiensis* (SIM 00126) 227
F.A. Sharif and N.G. Alaeddinoğlu (Turkey)

Pullulan production by color variant strains of *Aureobasidium pullulans* (SIM 00128) 231
T.D. Leathers, G.W. Nofsinger, C.P. Kurtzman and R.J. Bothast (U.S.A.)

Screening of yeasts for production of xylitol from D-xylose and some factors which affect xylitol yield in *Candida guilliermondii* (SIM 00131) 241
M.F.S. Barbosa, M.B. de Medeiros, I.M. de Mancilha, H. Schneider and H. Lee (Brazil, Canada)

Method for the preparation of stabile microencapsulated lactic acid bacteria (SIM 00133) . . 253
H.S. Kim, B.J. Kamara, I.C. Good and G.L. Enders, Jr. (U.S.A.)

Short Communication

An inexpensive insoluble chromogenic substrate for the determination of proteolytic activity (SIM 00127) 259
I. Šafařik (Czechoslovakia)

No. 5

Original Papers

Conversion of cyanide to formate and ammonia by a pseudomonad obtained from industrial wastewater (SIM 00134) 263
J.M. White, D.D. Jones, D. Huang and J.J. Gauthier (U.S.A.)

Adsorption of *Trichoderma reesei* cellulases on protein-extracted lucerne fibers (SIM 00135) . 273
F.J. Stutzenberger and M.A. Caws (U.S.A., New Zealand)
The use of gene probes in the rapid analysis of natural microbial communities (SIM 00136) . . 281
A.V. Ogram and G.S. Sayler (U.S.A.)
The lipid composition and conversion of tryptamine to N_b-acetyltryptamine in a *Catharanthus roseus* cell line without indole alkaloids (SIM 00137) 293
S.-L. Lee, M. Reporter, S.N. Hsu, J.L. Corbin, G. Luli, P.L. Burkhouse and J.H. Litchfield (U.S.A.)
Mechanisms of tetracycline and rifampicin resistance in *Bacteroides fragilis* mutants obtained by ionizing radiation (SIM 00138) 299
A.O. Azghani and R. Fuerst (U.S.A.)
Sterilization of bioreactor media on the basis of computer-calculated thermal input designated as F_0 (SIM 00139) 305
L.D. Boeck, R.W. Wetzel, S.C. Burt, F.M. Huber, G.L. Fowler and J.S. Alford, Jr. (U.S.A.)
Protoplast fusion in *Streptomyces avermitilis* (SIM 00141) 311
J. Kohler and G. Darland (U.S.A.)
Direct utilization of lactose in clarified cheese whey for xanthum gum synthesis by *Xanthomonas campestris* (SIM 00142) 321
L. Thorne, L. Tansey and T.J. Pollock (U.S.A.)

Short Communication
Microbial accumulation of neptunium (SIM 00140) 329
G.W. Strandberg and W.D. Arnold, Jr. (U.S.A.)

No. 6

Original Papers
Requirements for the high-level expression of murine interleukin-3 cDNA in *Escherichia coli* (SIM 00143) 333
R. Greenberg, K.M. Gewain, K.J. Shaw, B. Frommer, J.A. Anagnost, S. Zurawski, G. Zurawski, S.K. Narula and P.J. Leibowitz (U.S.A.)
Purification and characterization of a thermostable pullulanase from *Thermoactinomyces thalpophilus* (SIM 00144) 343
F.J.C. Odibo and S.K.C. Obi (Nigeria)
Mycotoxigenic isolates and toxin production on buckwheat and rice hulls used as bedding materials (SIM 00145) 351
G.C. Llewellyn, P.C. Sherertz, C.W. Armstrong, G.B. Miller, Jr., J.D. Reynolds, T.D. Kimbrough, G.A. Bean, W.M. Hagler, Jr., C.A. Haney, C.S. Trempus, C.E. O'Rear and W.V. Dashek (U.S.A.)
Effect of aeration on antibiotic production by *Streptomyces clavuligerus* (SIM 00146) 357
M.J. Rollins, S.E. Jensen and D.W.S. Westlake (Canada)
Expression of an endoglucanase gene from *Clostridium cellulolyticum* in *Escherichia coli* (SIM 00147) 365
G. Pérez-Martinez, L. González-Candelas, J. Polaina and A. Flors (Spain)
Ammonium lactate from deproteinized alfalfa juice by *Streptococcus faecium* (SIM 00148) . . 373
V. Cavazzoni, M. Manzoni and R. Craveri (Italy)
Characterization of microbial traits associated with glyphosate biodegradation in industrial activated sludge (SIM 00149) 377
L.E. Hallas, E.M. Hahn and C. Korndorfer (U.S.A.)
